ABOUT CHILD AND YOUTH EDUCATION SERVICES

Navy Child and Youth Education Services have installation School Liaison Officers available to assist with K-12 educational needs. Navy School Liaison Officers work with all branches of service. This list is school districts that are nearest the installation. Navy School Liaison Officers are available to assist families regardless of the school attended.

Public School Preschool

Only funded for students who require preschool on their special education IEPs. Washington State does not provide free public preschool to other children.

Kindergarten Age Requirements

For children to enroll in Kindergarten in Washington State:
A child must be 5 years old on or before August 31 in order to enter kindergarten in the fall.

An exception is made for children who have already started kindergarten in another state and are transferring to kindergarten in Washington. These children are transfer students, and as such, move into the grade in which they had been enrolled in the previous state. Registering for kindergarten is not enough; a child must have attended school as a kindergartener in another state to qualify.

Although rare, a child may be tested for early kindergarten entrance. If a child who fails to make the age cut-off is advanced socially, emotionally, physically and academically, the school district could test the child for early kindergarten entrance. The districts may test children who are within about 6 to 8 weeks of the cut-off. The requirements are high because there may be other children in the kindergarten class who are 6 years old when they start. Consider your child's maturity and skills when requesting early enrollment. Check with your local school district for more information on early kindergarten entrance.

Immunization

Washington immunization requirements are listed on the Washington State Department of Health website:
www.doh.wa.gov/CommunityandEnvironment/Schools/Immunization/VaccineRequirements

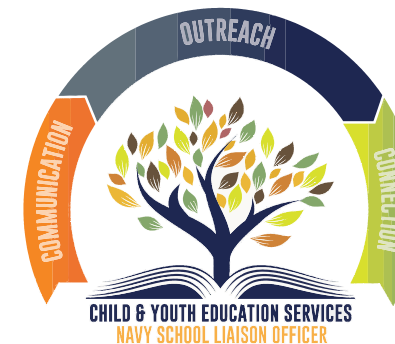

FOR MORE INFORMATION...
